1. TRADE NAME: GEOTRAP GEL

Liquorice flavoured monitoring device for the following target crawling insects: *Blattella germanica*, *Blatta orientalis*, *Periplaneta americana* and *Supella longipalpa*.

Monitoring device for the IPM application complying with UNI EN 16636:2015 Regulation, that must be applied to control regularly the pests presence in a specific place for a defined time.

2. CODE: P-04047**3. PICTURE:****4. TECHNICAL SPECIFICATIONS:**

Geotrap Gel is a monitoring device (glue trap).

It is composed of:

- Cardboard (the closed trap has 4 entrances for insects);
- Liquorice flavoured glue;
- Red gel previously spread on the glue surface;
- White, black-printed silicon release paper, indicating the instructions for its detachment.

Trap size (open trap):

- **Length:** 242 mm
- **Width:** 203 mm

Trap size (assembled):

- **Length:** 203 mm
- **Width:** 100 mm
- **Height:** 25 mm

Quantity of glue on the trap surface: 3 g

Glue Area: 90 x 145 mm

Colour: As in the picture

Mod: 4.1.2. UK

5. HOW TO USE:

Place Geotrap Gel in the following places:

- Near cable trough and electric boards, dishwashers, sinks, ovens, sourdough rooms, platforms, engines, discharges, doors and perimeters, moist and hot environments, and everywhere the presence of crawling insects is suspected;
- In dark areas;
- On the floor or on the wall.

We suggest you to give a number to each trap and indicate its placement in the monitored area plan, in order to facilitate the check during the periodic monitoring.

Theoretical covered area: at a distance of 5 meters the one from the other, according to the assumed pest infestation.

Suggested monitoring period: all the year long, especially in the period between April and October, even though in a conditioned area insects are dynamic, despite their being subjected to seasons.

Suggested frequency of the controls: weekly. Change the trap after two months (at the latest) or before according to the pest infestation or the presence of dust, water and/or damp in the environment.

The use of the trap in damp and dusty places could reduce the product functionality over time.

Storage conditions: in a cool and dry room, temperature below 25°C and R.H. below 55%.
If well stored (intact packaging), the product shelf life is 3 years.

6. PACKAGING AND SPARE PARTS:

Packs: 20 pieces

Case: 200 pieces (sales unit)

7. DISPOSAL CONSIDERATIONS:

Waste disposal should be in accordance with existing Community, National and local regulations.
